

Successful Strategies for Managing Challenging Behaviors in Young Children with Disabilities

Presented by Dr. Ajileen Singh

Designed for FIRST 5 Partners and other Local Professionals

**Friday, March 13th, 2015
9:00 a.m. – 12:00 p.m.**

Dr. Anjileen Singh of Children's Health Council will be leading us in a presentation on the connection between emotional development and challenging behaviors in children under 5. She will focus on how specific disabilities affect this connection and will discuss strategies for identifying, understanding, and developing techniques to address the challenging behaviors and promote alternative, appropriate behaviors. Professionals and parents alike will come away with valuable information and strategies to support this population. The training will be targeted to the needs of FIRST 5 therapeutic service providers and early educators but is open to all other interested professionals and parents.

Dr. Singh has experience providing individual, family, and group therapy and psychological assessment for children and adolescents with attention-deficit/hyperactivity disorders, academic challenges, family conflict, disruptive behaviors, and general adjustment difficulties. Dr. Singh specializes in Autism Spectrum Disorders; she is a Board Certified Behavior Analyst and trained in Pivotal Response Treatment. Dr. Singh is committed to providing developmentally appropriate behavioral interventions for children and adolescents diagnosed with Autism Spectrum and related disorders and their families. Dr. Singh also provides trainings and workshops related to autism intervention for parents and professionals.

This training is free. Pre-registration is required. Certificates of attendance are issued for LMFTs, LCSWs indicating hours earned against the Infant-Family Early Childhood Mental Health Guidelines.

Location: Parents Helping Parents
Sobrato Center for Nonprofits – San Jose
