

OPPORTUNITY TO PARTICIPATE IN EARLY CHILDHOOD MENTAL HEALTH TRAINING MODULES 2021/2022

The Transdisciplinary Training Academy is excited to offer a powerful relational and developmental boost to your professional development! Your participation in the training modules will offer opportunities for building cross systems networks, deepening engagement and intervention skills, enhancing understanding of families, and significantly raising the quality of services we provide to young children.

Modules will provide an integrated learning experience consisting of reflective practice groups, half and full day didactic trainings, assigned readings, assigned videos, and reflective learning groups. Each module will offer knowledge hours and reflective practice hours toward building a portfolio for endorsement as a

Transdisciplinary Infant Family Early Childhood Mental Health Practitioner

Space is limited. Interested applicants (for one or more modules) should contact Sharla.Kibel@hhs.sccgov.org to explore their interest and availability prior to the specified dates or sooner if possible.
